POWERplus® Pelican SOLAR DIGITAL TYRE GAUGE

Another smart energy saving device from POWERplus® !

With this solar energy digital tyre gauge you can accurately measure the pressure of your car or motorbike tyres.

Now you are saving double energy. By using solar power you will save batteries and with the right pressure in your tyres you also save fuel. This will also contribute to a better environment.

The POWERplus® Pelican comes with a built-in night time red flashlight, so you have a tyre gauge and night flashlight in one product.

POWERplus®

Technical details

Item	Parameter
Measuring range	0.15 – 10 bar
Maximum deviation	+/- 0.07 bar
Pressure displayed	in bar, psi, kPa or kg/cm ²
Battery	2 x 3V CR2032
Dual powered technology – Powered by solar panel during daytime and backup battery during night-time	
Orange backlit LCD display and orange LED light	
Built in extendable depth gauge to measure the depth of tyres.	
Automatic shut off - Battery 2 x 3V CR2032
